## HOW WE ARE HELPING

### **Sourcing Timely and Much Needed Products**

As one of the industry's leading suppliers of promotional and branded merchandise, we start with our vast network of Supplier Partners around the globe to identify and source products that our valued customers and their employees need to stay safe in any environment.

### **Verifying Product Quality and Manufacturing Best Practices**

Once we have sourced products from the industry's leading Supplier Partners, that's when the work really begins. We work with them to verify the quality of the products.

### **Navigating the Current Shipping Environment**

Next, we begin to navigate the rapidly changing shipping and transportation environment by working with providers all across the globe to find creative ways to quickly and efficiently move PPE Products to where they are needed most. This includes working with all forms of transportation providers, including air, ocean, and ground freight.

### **Keeping You Informed and Equipped to Succeed.**

It is our goal to make sure that you are well informed about all the PPE products you are purchasing, their quality, and their shipping and fulfilment. We focus on these things so you can keep your focus where it belongs; on your organization and mission.
